Professional School of Applied Science

Graduated with Informatics

2020-2025

## SKILLS

- Communication skills
- Creativness
- Digital skills
- Critical thinking

## LANGUAGES

English

German

## ABOUT ME

I graduated from a mathematics high school with a mathematics profile. I dare say that computers are my passion, but fashion also plays an important role in my life. I grew up in the fashion industry, as my mother owns a children's clothing company and I know how the entire production of a garment goes.

## WORKING EXPERIENCE

### Viki Craze

I maintained the company's website, created new advertisements and sales strategies. I worked in the clothing industry, helping with the work on the clothes. I worked in the scale, sorting the clothes, in the tailoring room, in the order packaging and in the sales process.

## HOBBIES

- Dog
- Reading
- Tennis on court
